

Australian Secondary Science Book 1 (Bk. 1)

Australian Secondary Science Series is a complete course of study for science students throughout Australia. It encompasses the most recent developments at the national level and recent state curriculum changes. This exciting, relevant approach to science breaks new ground. It shows science in context with the world in which we live and work. It is very heavily illustrated in full colour, but with the necessary detail of science diagrams. Extensive use of colour photographs and colour printing brings science to life. Extension activities for more able students provide for a wide range of abilities.
