

In the Presence of Unconditional Love: Understanding the Near Death Experience

If you have become disillusioned with church doctrine and no longer attend. If you want to believe, but cannot accept an authoritarian God. If you are unsure and struggling with life. Then this book is for you. This book is more than an account of near death experiences. It is a self-help book complete with instructions. It will explain in detail the tough questions of life. Who you are, and why you are here in the physical world? Where did evil come from, and is heaven and hell real? Is there an afterlife and what is it like? It discusses Jesus and the real meaning of Love. This book resists the doctrine of creation and theories of evolution in a rational way. But most of all this book will help you feel good about yourself and the world.
