

Patrick Moores Yearbook of Astronomy 2016

Until his death in 2012, world-renowned astronomer and broadcaster Sir Patrick Moore edited this indispensable guide to the wonders of the night sky for 52 consecutive years. With the 2016 Yearbook of Astronomy, his friend and long-time co-editor Dr. John Mason continues Sir Patrick's legacy. The Yearbook of Astronomy collects together a month-by-month guide to events to look out for over the coming year, from eclipses and planets, to comets, meteors, nebulae, and phases of the Moon. It also contains authoritative charts, astronomical data, and a series of specially commissioned articles by some of the world's leading astronomers a fitting ongoing tribute to an extraordinary man who popularized astronomy for over half a century.
