

The ZETA Message (The Zeta Series Book 1)

The Zeta Message is a powerful non-fiction account of author Judy Carroll's lifelong contact with the gray extraterrestrials known as Zeta Reticulans. It provides a detailed description of an average Australian family who, in the year 2000, suddenly found themselves caught up in full-on and seemingly frightening contact involving flashing lights, black-clad figures appearing in bedrooms in the middle of the night and children waking screaming in terror. Introduced by a mutual friend, Judy assisted this family to open up to deeper levels of understanding and conscious awareness as the fear barrier was gradually broken down to reveal incredible depths of love and wisdom. This book is excitingly different in that, for the first time, answers and explanations are given on the true meaning behind the alien abduction scenario, and its implications for the future of Planet Earth and her people. A companion volume, *Human by Day, Zeta by Night*, dramatizes the events herein described in a fictional manner, and provides ground-breaking information as well as deeper teaching and knowledge on the UFO and abduction phenomenon.
